Algonquian Components Bibliography

This is a collection of resources used in the Nisinoon project (https://nisinoon.net) to collect information on derivational morphology in Algonquian languages. It was compiled by Monica Macaulay (University of Wisconsin-Madison) and Hunter Lockwood (Myaamia Center, Miami University) with the help of Savana Stauss, Anushri Kartik-Narayan, and Rachel Fedorchak.

This material is based upon work supported by the National Science Foundation under Grant no. BCS-1953103.
